Dear Sir,

Re: An appeal for your searching investigation
of "Electric Projecting Killing Machine"

I am very much concerned that the request for inspect the ground's rooms of Indian Police dormitory is still in suspense. Do not forget that this machine is the greatly ills of society. the projecting power is invisible to the naked eye, murder and disturbance are incomprehensible to ordinary mind, moreover the murderer's disposition are as cruel as beast, murder has become an institution. So had not a rapid measure to rake the den, the mischief will be not endure to think. As regards the position of machine, I will undertake that in somewhere ground of Indian Police Dormitory. owing to no way to escape from bound, I again write to you, in hope by your influence and wits to break open the hell.

The murderer's one thought is how to get away. greatly care should be exercised in the activity of Coolie and Boy. Electricity was the only life of the machine, you may make a try to cut off all electric supply at this dwelling. I shall give a immediate echo to you if it is on point

Yours truly

The reporter is the suffered.

P. S. I beg to inform you that I have just removed to the above address. Please change your record accordingly.

Date 10 12 40

N. Sharman Esq.,
Divisional Officer,
Louza Station, Shanghai.

Dear Sir,

Re: an appeal for your searching investigation of Electric Projecting Killing machine

Many thanks for your letter the other day in which you were kind enough to advise me to call on you at your station. I am sorry to say that I lived under the machine, to converse with a people was a priviledge and therefore, at present, I am unable to call upon you in person.

As to the affair you replied in it concerning the result of search, I could not accept as satisfactory, as the machine's streamer still shines in the same direction and behaves worse than ever. I request you to conduct another investigation in all the room located at the ground floor of the Indian Police's dormitory.

Great fear are entertained for your search, as the machine bears a precise vision and hearing instrument, which can get a sight of an outside scenery though within the room, so, before the searching, you may make a reconnaissance at its back window or cut off the electric supply.

Yours truly,
T. P. Seung

Dear Sir,

An appeal for your searching investigation
of "Electric Projecting Killing machine"

How was the matter settled to which I have solicited your attention? In my thought, it is without any difficulty besides opening all the rooms of the said location. I wonder what prevented you from searching.

I thought to have called on you at your station, but machine disqualifies my body for labor and mind speech for expression. I am thus forced to leave the search entirely to yourself.

The machine continue to do homicide at present and his act worse than ever. I must beg you to give immediate attention to my request.

Yours very truly,

T. P. Sung,

To the Incharge of the Kouza station

Dear Gentleman,

Re: an appeal for your searching investigation of "Electric Projecting Killing Machine"

The above appeal I continuing to eight months longer was disallowed by your authority. Such a treatment is beyond the range of my conjecture. This case can not bear comparison with the common events, the hazards are over all others, you must give your entire attention to what I have told you and execute the decree. Why you pretermit the fact let it alone, furthermore the murderers and weapons lurked in your Foreign Staff Quarters, it is an imperative duty of you. I urge this, as the matter too urgent to be put off any longer. I hope you take into deliberation

Your truly,

T. P. Sung

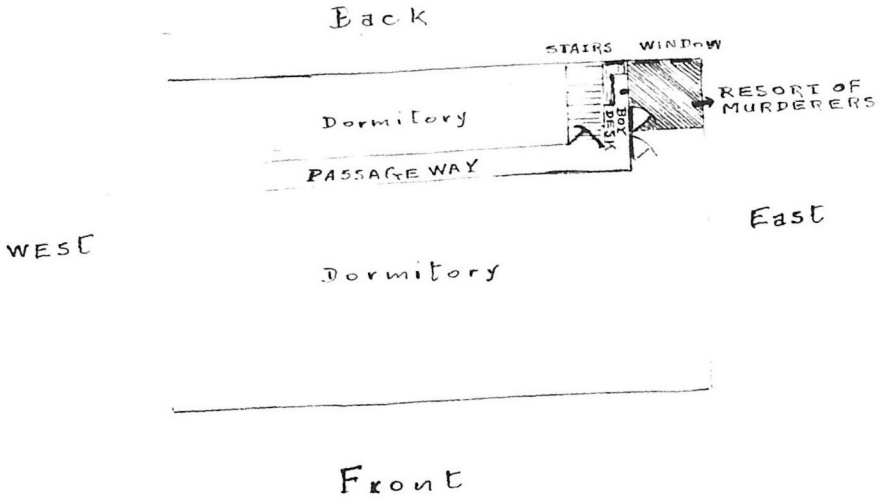
The reporter or the suffered.

1. Enclosure.

For the convenience of your investigation I enclosed a plan herewith.

The following plan indicates the location of the Electric Projecting killing machine

Foreign Staff Quarters Upper Floor Plan



Second upper bed, No.15, dormitory,
The Chi Yan Refugee Camp,
Corner of North Chekiang Road
and Tsepoo Road, Shanghai

March 9th, 1940.

To the Incharge of the Louza Station,

Dear Gentleman,

AN APPEAL FOR YOUR SEARCHING INVESTIGATION
OF ELECTRIC PROJECTING FILLING MACHINE.

Regarding the above subject I have a series of letters to adjure you to search, but am unable to account for your prolonged silence. Suppose let it remain as it is. It greatly discomforted me. My statement is not unfounded, the strong electric power stuck in my body all the day and night and voices of these murderers can be heard at any time. With the highest certainty I made an appeal to you for help.

Because the resort of murderers occupies in your Foreign Staff Quarters and the Murderers is the BOY of the upper floor of your Quarters therefore my supplication is unremitting. For the purpose, I went through many trails to obtain the real. I Don't presume to authorize you with an unfounded hopes.

According to my observation, you had a long time negligence in inspection of your BOY'S dormitory, Among these murderers, it has lived inseclusion over twenty or thirty years longer. They exists under the name of BOY but never taken any services. All the year round, sticks on the machine, stretch its strong electric power in outside, gave themself up to evil without restraint. If you take a little care in cheking of your BOY of the upper floor part, the certain evidence will appear to your sight immediately.

Concerning the location of the machine, which was certainty by practical observation, For the sake of apprehension, I mentioned as below:

The secrect oozed out from their inconherent conversation. Under my careful espial, it was found that it is all true. This room located at the northeastern corner of the upper floor of your Quarters, near by the back stairs, front of the door is the BOY work table set there. It stands in an obscure corner, you never was there a time. Moreover, the machine has none of apparent evidence shows in out of door, also not a sound was there to indicate their presence, hence no body knows the secrecy of the room. With this view they can shrouded in mystery endlessly. In view from my stand point, this room formerly is an excellent office. Such machine probably used for detectives, it occupies in the north part of the room. After a reformation, this room separated into two parts, the south parts of the room taken up by your staffs and the others is occupied by the machine (that is the said resort). The situation was apprehended at a glance by every one. Between two doors the space within over a foot, that suffice to prove it has been restored, The room of which stored the machines(that is the said resort), it covers a small space and surface of the door show signs of out of repair, the handle of the door is off and the hole is well on. With a little attention will suffice to show that it is a strange shelter. In view from every aspect, they have good precautions against apprehension. On the out of door they sets a look-out who watches your movement and transmit the message, his ostensible air was to serve you the truth lies in quite another diretion. All of them are apprehensiva of observation. So hardly watches were made all the time. The above condition which I gleaned it from investigation of June 29, 1939. It all can be provable by your inspection.

Concerning the investigation of June 29,1939. The circumstance was expressly stated in my letter of September 3rd. 1939. As you remain in ignorance of it. I gathered all details of scene amplified in below:

On that day, when your staff comes to my sight it already shows on its glass, at the time step into your Quarters that we have all in the machine, when we walked near by the door of the resort the electric power suddenly heavy, every one goes off into

irrensible attitude. Therefore we attained to door but impossible get into the room. The above words that does not come under your staff's observation. I supplement here for your consideration.

I am bound in horner to be personally present but was interdicated from acting without the least freedom. Further-more a numbers of machine lay in wait for the helper, whatever families, friends,or your staffs, who is on my sight always fall into the cluthes of the machine, not a man is exempted from infringement. Under such circumstance I leave it to you to do as you think best. As occasion requires, you cut off the electric supply of your Foreign Staff Quarters. I shall be present immediately without notice.

This weapon has a extremely danger for the mankind. You ought to exercise all your precaution at the time of your rummage, and with a prompt steps to unber the door. As the matter is urgent, I expect you to proceed with expedition.

Yours truly,

T. P. Sung

Sir,

An appeal for your searching investigation
of "Electric Projecting Killing Machine"

I have the honour to inclose herewith a map, relative to the locality of the above said machine, and thank you to give the matter an effectual remedy as speedily as possible.

If, in search, impediment occur, persevere. The machine has the capability to prevent one's mind, speech, and action. If, at the time, you are beset by machines, cut off the electric supply the danger soon released. Flight was the [illegible] only resource. Be on your guard, be cautious, do not let your Boy, Servant, and Coolie too freedom.

With the most heartfelt wishes for your success.

I have the honour to be,
Sir,
Yours Obediently,

I. P. Sung.

T. [illegible]

Second Dormitory.
The Sze-shen Refugee Camp.
York-Fa temple. 280 Penang Rd.

To the Incharge of the Detective Department. Oct. 24. 1939.
Bouza Police Station.

I beg to call your attention to an electric projecting machine which is hidden somewhere above of the Foreign Staff Quarters for the purpose of killing and murdering people.

That machine is said to be a rarity in Shai. the projecting power is very strong. though there is no light or shade visible. It can kill any body's life as soon as the projecting power gets in touch with him or her wherever one is on the boat or sleeping indoors or going outdoors no matter how far the distance is. To sum up it has the following killing powers:

It can get into human body and destroy the organs.
It can make every body abnormal and kill one.
It can make his or her strains in their body feel inclined to drown in the water for death.
It can transmit words through another man's mouth in order to disturb speaking of others.
It can make one's intelligence fly away and become

a stupid and no-minded person of usefulness.

It can make film picture at a long distance and project its harmful power into human body in order to cripple one's mind and actions.

It can receiving and projecting the noices and voices from or to elsewhere.

It is said that the machine can make one walk and feel nothing particular after he or she has not taken anything or slept or drunk etc. for more than a week or ten days. It can in other hand, however, kill one immediately without allowing anybody to help or save him. Since the outbreak of this harmful machine coming into the world, it has been two years further said so. In Chuensha, Putoong, its cruel behavior is said to be more than any where else. My third daughter has died of the effect of the machine. My fourth daughter is nearly suffered to death on account of the effect of machine. Most of my family members have more or less received harmful effects of the said machine. So it is my purpose to report this to your authority in order to stop this cruel and harmful

enemy of our mankind. An investigation was made by members of Rouza Station on June 29. but due to previous precautions taken by the gangsters, nothing was discovered.

In view of the intensification of the activies of these gangsters, I request you to conduct another investigation in the room located at the northeastern corner of the upper floor (behind the Boy desk) of the Quarters.

Yours truly.

T. P. Sung

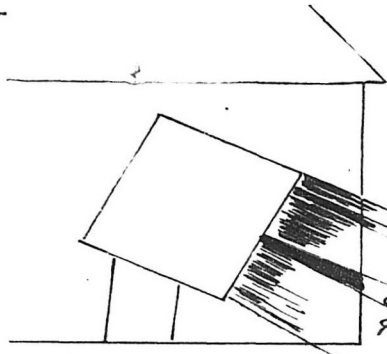
The reporter on the suffered
T. P. Sung.

P. S. you are advised to cut off the electric supply at the time of your investigation. and also to open all empty rooms of the upper floor of the Quarters.

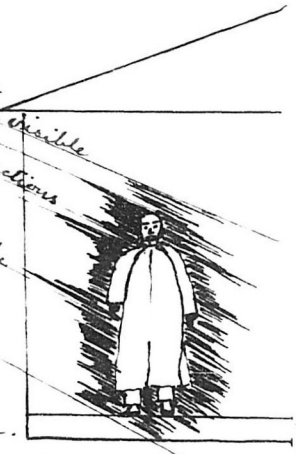
Name and address in Chinese 孫鍾泮又名祥生 現居欄柳路二八〇號玉佛寺內基生牧師所第二宿舍

Supported a drawing see next page.

The following drawing to show the actions of the electric projecting killing machine.



The strong electric power can get into the body. There is no light or shade visible. Can make one's no feeling and stop the actions. Can make a person can't speaking and the gangsters able talking for the person.



The projecting power can get into the house able to look the whole views in the room and also possible to heard the voices and noises.

I sure that there are several machines hide there. when I speaking with a person as soon as the another one assist to disturb the speaking with others refused to help or save me.

I sure those gangsters are all of the room Boy of the Quarters. It is heard that there are voices of more than eight or nine Chinese heard there. The voices of these gangsters to be heard both day and night. It is heard that the machine is for refuse apparatus of your station out of use has many years. forgotten in the Quarters never remembered. I firmly request you to investigation and search carefully in the Foreign Staff Quarters (in the room located at northeastern corner of the upper floor behind the Boy desk) as the machine is concealled and carefully hidden there.

Dear Gentleman,

RE: AN APPEAL FOR YOUR SEARCHING INVESTIGATION
OF "ELECTRIC PROJECTING KILLING MACHINE"

I understand from your reply of 27th, Ult. that you have discontinued your inspection in consequence of nothing of discovery. So far as I know, it is quite certain that the resort is in your station, I make this warrant because there is some proofs having appeared in my sight. In order to comprehend the truth on you, I beg leave to tell you the story.

Since I learned the locality in your station, I begin to proceed in reconnaissance, while I am looking at a room at above the roof of your Indian police's dormitory, it shows me a proof with turn on the light thereat and said to me "there is nothing of hiding". after pass through such a scene of performance, directed me to attend to your Foreign Staff quarters, in consequence hardly gain the view, I rest the reconnaissence with the write. during that period, you have some changes produced at the house, such as take down a receiving antenna post from the roof of your Foreign Staff quarters, repairs the gate of Ningpo Road which I proved in all after heard the information. The proofs stated above is a source of what I request.

Have you fulfilled on the proposal I made to you in my last? In these latter days, I found that you are not only have the BOY, SERVANT, COOLIE in Your Foreign Staff quarters but also have the same in your Indian and Chinese's dormitory and your office. Have you ever extend your attention to these lot? If not, please do the same at once. as I verily believe the murderer among this degree. Lately, I found a new suspicious place in your station, the house is over against your office, above story is occupied by Chinese Police, I beg you to let me know What was occupied in ground?

I must warn you that the machine can holds human mind, speech, and action and at same time possible do the same by its own idea, beside this, it always like play a person with anger and assault. I sincerely beg you will take scruplous care of your service at this unsettled period. I must apologize for this trouble I am giving you, which, however, you will probably excuse, on account of the importance of the affair.

Your truly,

An appeal for your searching investigation
of "Electric projecting killing machine"

Regarding above subject I have requested you over and over again but so far without got a reply in the affirmative. It is the questions of vital importance, so I am hearty request you to proceed with an expedition.

I am perfectly certain that machine existed in your Foreign Staff Quarters. These instruments are the old obsolete apparatus of your station. It was said in the room located at the northeastern corner of the upper floor of your Quarters. Owing to the long desuetude left in the room without having directed the leasted attention to it. Your Room Boy occupied for murderous implement in privity. From their conversation voices I got the truth and confirmed the conspirators has eight or nine Chinese in there. They hided many years and ploted all day and night. So far yet remain subsistence in depriving of any life. The projecting power has none of light or shade visible, to seek a person's life without have particular phenomenon

and evident appearance. The energy possible make one's no mind and speechless and also can arrested any of actions at the time of murder. Furthermore such machine has a good many however, in other hand to give one immediately without allowing anybody to help or save him. The worst danger to the mankind are immeasurable. In another way, they used every means to look up informations and resists rummage. By this cause we have failed of our purpose in investigation on June 29. 1939.

In view of the fact the cruel behavior runs to the extreme. In our old Bureau (280 Bunang Rd) always occurred causeless stirring events. It has none of appearances no one sniff the machine violated upon them. The affair is imminet. I request you to cut off your electric supply few minutes and pounce upon the room located at the northeastern corner of the upper floor of your Quarters. I am anxious your advise.

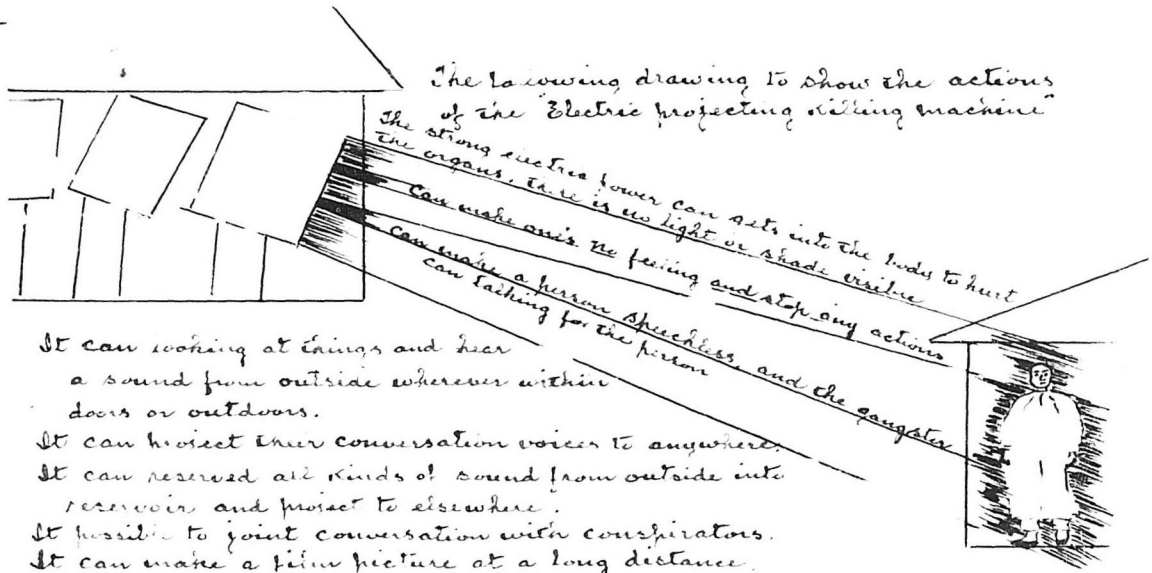
Your truly.

孫鍾洋又名祥生

The reporter or the suffered

Supported a drawing to show the machine's energy for which I have had suffered during past three years.

The following drawing to show the actions of the "Electric projecting killing machine"



It can looking at things and hear a sound from outside wherever within doors or outdoors.
It can project their conversation voices to anywhere.
It can reserved all kinds of sound from outside into reservoir and project to elsewhere.
It possible to joint conversation with conspirators.
It can make a film picture at a long distance.
It can project the solidness.
It can blows cold wind and project heating.
It can kill anybody's life as soon as the projecting power gets touch with him or her wherever one is on the boat or sitting indoors or going outdoors no matter how far the distance is. While the projecting power gets into the human body:

It can stop the person's breath most effective for youngling.
It can make a person can not sleeping, eating, drinking, excreta, etc.
It can destroy five senses or make it lost sight, hearing, smelling, taste, etc.
It can make a person show sign of illness as headache, vomit food, cough, heartburn, ague, inflame, nocturnal emmission, etc.
It can stop the function of brain and heart to make one's speechless and no mind also can transmit words through another man's mouth in order to disturb the speaking of others.
It can make one's intelligence fly away and become a stupid no-minded person of usefulness.
It can stop any actions or constrained an action as'

It can trouble one's actions to inflict loss on a person.

It can make a person very angry to flatter a person about or to hick a quarrel with some one or to wrangle with a person to create noise.

It can make a person to annoyed some one or make reluctant feeling.

It can make different senses to a person such as fright, pleasure, anguish, and shame.

It can make a person lazy movement or slack in duty.

It can make a person numb senses or forgotten anything.

It can make a person acting hard over recklessness to smash something

It can make a person to mocke at a person

It can make a person scatter rumour or publish libel against a person

It can make his or her strains in their body feel inclined to drawn in the water for death.

It can make one wake and feel nothing particular after he or she has not taken anything or sight or drunk etc. for more than a week or ten days.

It can make a person often jointed limbs workable by machine.

I was undermined by the above said machine many three years and suffered the torments to the extreme. My speches, minds, actions and sleeping, eating, excreta was entirely undergo by the machine. Furthermore such machine has a good many, whichever friend, family or your staff who is on my sight always lost his mind impossible talking anything. The projecting power is invisible, no one sniff the machination. So far yet remain subsistence in depriving of my life.

March 5th, 1940.

To the Members of the Foreign Staff Quarters
of Louze Station,

Dear Gentlemen,

AN APPEAL FOR YOUR SEARCHING INVESTIGATION
OF "ELECTRIC PROJECTING KILLING MACHINE"

Regarding the above subject I have a series of letters to adjure you to search, but am unable to account for your prolonged silence. Suppose let it remain as it is. It greatly discomforted me. My statement is not unfounded. The strong electric power stuck in my body all the day and night and voices of these murderers can be heard at any time. With the highest certainty I made an appeal to you for help.

Because the resort of murderers occupies in your Foreign Staff Quarters and the Murderers is the BOY of the upper floor of your Quarters therefore my supplication is unremitting. For the purpose, I went though many trails to obtain the real. I won't presume to authorize you with an unfounded hopes.

According to my observation, you had a long time negligence in inspection of your BOY'S dormitory. Among these murderers, it has lived in seclusion over twenty or thirty years longer. They exists under the name of BOY but never taken any services. All the year round, sticks on the machine, stretch its strong electric power in outside, gave themself up to evil without restraint. If you take a little care in cheking of your BOY of the upper floor part, the certain evidence will appear to your sight immediately.

Concerning the location of the machine, which was certainty by practical observation. For the sake of apprehension, I mentioned as below: The secrect oozed out from their inconherent conversation. Under my careful espial, it was found that it is all true. This room located at the northeastern corner of the upper floor of your Quarters, near by the back stairs, front of the door is the BOY work table set there. It stands in an obscure corner you never was there a time. Moreover, the machine has none of apparent evidence shows in out of door, also not a sound was there to indicate their presence. Hence no body knows the secrecy of the room. With this view, they can shrouded in mystery endlessly. In view from my stand point, this room formerly is an excellent office. Such machine probably used for detectives, it occupies in the north part of the room. After a reformation, this room separated into two parts, the south part of the room taken up by your staffs and the others is occupied by the machine (that is the said resort). The situation was apprehended at a glance by every one. Between two doors the space within over a foot, that suffice to prove it has been restored. The room of which stored the machines (That is the said resort), it covers a small space and surface of the door show signs of out of repair, the handle of the door is off and the hole is well on. With a little attention will suffice to show that it is a strange shelter. In view from every aspect, they have good precautions against apprehension. On the out of door they sets a lookout who watches your movement and trans-

mit the message, his ostensible air was to serve you the truth lies in quite another direction. All of them are apprehension of observation. So hardly watches were made all the time. The above condition which I gleaned if from investigation of June 29, 1939. It all can be provable by your inspection.

Concerning the investigation of June 29 1939. The circumstance was expressly stated in my letter of September 3rd. 1939. As you remain in ignorance of it. I gathered all details of scene amplified in below:

On that day, when your staff comes to my sight. It already shows on its glass, at the time step into your quarters that we have all in the machine, when we walked near by the door of the resort, the electric power suddenly heavy, every one goes off into insensible attitude. Therefore we attained to door but impossible get into the room The above words that does not come under your staff's observation. I supplement here for your consideration.

I am bound in hornor to be personally present but was interdicted from acting without the least freedom. Furthermore a numbers of machine lay in wait for the helper. Whatever families, friends, or your staffs, who is on my sight always fall into the clothes of the machine, not a man is exempted from infrangement. Under such circumstance I leave it to you to do as you think best. As occasion requires, you cut off the electric supply of your Foreign Staff Quarters. I shall be present immediately without notice.

This weapon has a extremely danger for the mankind. You ought to exercise all your precaution at the time of your rummage and with a prompt steps to unbar the door. As the matter is urgent, I expect you to proceed with expedition.

Yours truly,

The reporter or the Suffered

T. P. Sung

COMMISSIONER'S OFFICE

"appeal for your searching investigation of "Electric Projecting Killing machine"

Supposed location of the said machine: It is said that in Foreign Staff Quarters of Rouza Police Station. And it is further stated that the location of the said machine lies in the upper story east & north corner of the Foreign staff square. Moreover it is heard that there are voices of more than eight or nine Chinese men and boy heard there. The voices of the men and boy are to be heard both day and night. That machine follow me estimate more than thirty years owing it can stated my youthhold story. The holders are all of the room boys I belive.

That machine is said to be a rarity in Shanghai, the projecting power is very strong. Though there is no light or shade visible. It can kill

any body's life as soon as the projecting power gets in touch with him or her wherever one is on the or sleeping indoors or going outdoors no matter how far the distance is. To sum up it has the following killing powers:

It can get into human body and destroy the organs.

It can make every body abnormal and kill one.

It can make his or her strains in their body feel inclined to drown in the water for death.

It can transmit words through another man's mouth in order to disturb speaking of others.

It make o-e's intelligence fly away and become a stupid and no-minded person of usefulness.

It can make film picture at a long distance and projecting its harmful power into human body in order to cripple one's mind and actions.

It can projecting the noises and voices to elsewhere.

It is said that the machine can make one walk

and feel nothing particular after he or she has not taken anything or slept or drunk etc. for more than a week or ten days. It can in other hand, however, kill one immediately without allowing any body to help or save him. Since the outbreak of this harmful machine coming into the world, it has been two years further said so. In Chuensha (川沙). its cruel behavior is said to be more than any where else. My third daughter has died of the effect of the machine. My fourth daughter is nearly suffered to death on account of the effect of ~~the~~ machine. Most of my family members have more or less received harmful effects of the said machine. So it is my purposed to report this to your authority in order to stop this cruel and harmful enemy of our mankind. As it is the duty of your police to maintain peace and safety of the community, so I firmly request you to investigate and search carefully the machine in the Foreign staff Quarters

(the lodging place) of Pouza Police Station. As the machine is concealled and carefully hidden there. I shall appreciate very much upon youring immediately doing so at your earliest convenience.

Yours respectfully,

T. P. S

REPORT

Date May 19, 1939.

Subject T.P. Sung (苏锦洋), alias Sung Chan Shen (苏祥生).

Made by D.S.I. Liao Chung Chien Forwarded by C. Crawford

Reference the attached letter addressed by one T.P. Sung, alias Sung Chan Shen, to Louza Station alleging that a "killing machine" is being stored i the foreign staff quarters of the station, enquiries elicited that the writer is a man suffering from partial mental derangement. He is aged 35, a native of Chuensha, Pootung, married and has two daughters and one son. The members of his family reside in Pootung whereas he himself is accommodated at the No.2 Self Supplied Refugee Camp, Yu Fuh Temple off Penang Road. He steadfastedly refuses to join his family in Pootung despite repeated requests by his friends and relatives urging him to do so.

In enquiring into his antecedents, it was found that he suddenly became mentally unbalanced about the end of 1936 when he was working as a clerk in the American Asiatic Underwriters, 17 The Bund. Till then, he had eight years good service to his credit in this concern. In February, 1937, seeing no improvement in his condition, the American Asiatic Underwriters discharged him.

Sung has in Shanghai an elder cousin, Mrs. Ho (何太), who resides at 145 Tszepang Road. According to her, Sung's mental disease is not really serious and in fact for many hours during a day his condition is normal.
